Project

Supporting the complex needs of a global business

Introduction

Automotive accessories manufacturer EGR Group needed a time and attendance system to support their global growth. Here's how OneAdvanced's platform has met their needs, in EGR Group's own words.

A growing, global business

The EGR Group was founded in 1973, and we've grown to become the world's leading designer, manufacturer and international marketer of thermoformed automotive accessories. Today, we employ over 1,100 people in a wide range of functions. We have offices in Brisbane, Melbourne and Sydney, Australia, and our product development and warehousing sites are based in Ontario, Canada, California, USA, and Milton Keynes, UK.

As our business continued to expand worldwide, we were looking for a solution that could keep up with our needs. Despite being new to Australia at the time, we were impressed by OneAdvanced's time and attendance system, as well as their assurances of longevity and support in Australia.

"The OneAdvanced team came through with a turnkey solution – on time and on budget – and continue to offer second-to-none support. OneAdvanced offer terrific support and any queries or problems requiring their assistance have been addressed in a prompt and professional manner. This is of paramount importance to our Payroll department who need to ensure our people are paid accurately and on time – week in, week out."

Glen Mathison, IT Manager, EGR

"We've installed 15 card clocking terminals across seven sites to record attendance."

Glen Mathison, IT Manager, EGR

A system we recommend

Today, OneAdvanced's time and attendance system easily accommodates all our award and workplace agreements, keeping up across four businesses and over 650 factory employees. We've installed 15 card clocking terminals across seven sites to record attendance.

"Over time, despite changes to our business requirements and an upgrade to our MicrOpay payroll system, OneAdvanced have proven to be a reliable and valued business partner to EGR. We have recommended OneAdvanced's time and attendance system to other organisations and will continue to do so."

Glen Mathison, IT Manager, EGR

Powering the world of work

Hopefully this was a helpful insight into OneAdvanced's HCM solutions. If you'd like to find out more about how our solutions can help your business and ensure you are ready to meet the future, get in touch with us today.
