

Assessment and Learning for Functional Skills

Our Assessment and Learning solution, bksb, is a global leader in education technology, with solutions for Functional Skills, Digital Skills and GCSE used by thousands of education providers and millions of learners around the world. As an online assessment solution, it offers initial and diagnostic assessments alongside personalised learning tools, all available online for your learners and tutors. With our solution, education providers receive a detailed view of each learner's attainment and improvement, while increasing learner engagement through user-friendly resources suited to any level.

The Functional Skills solution provides the learning and assessment resources needed for your learners to gain the fundamental English and maths skills necessary for their personal and working lives. Using our curriculum expertise alongside the latest innovations in Artificial Intelligence, we offer a personalised and engaging progression pathway to any learner working towards Functional Skills.

Get in touch

Clear Pathway

When a learner is enrolled, they are guided through an initial assessment to identify their current English and maths levels, followed up by a diagnostic assessment to create an individual learning plan suited to their needs.

Intelligent Assessment

We use Artificial Intelligence and a wealth of historic data to generate adaptive assessments suited to each individual learner, making sure that you are getting the most powerful data out of each assessment.

Empowered Learners

Maximise learner engagement with multimedia learning resources accessible from any device and designed to cover pre-entry to level 2. Exam-style practice questions, matching the Functional Skills Reform specifications, are also available.

Immediate Feedback

Learning resources and exam practice are all self-marking, providing your learners with immediate feedback and guidance on how to improve, with progress checks at the end of each learning module.

In-Depth Reporting

Inbuilt progression reports are available from within the solution to provide meaningful insight at the click of a button, helping you track your learner achievement and provide valuable evidence of improvement for auditing purposes.

Powerful Connections

We connect with other products in the OneAdvanced Education portfolio to create a joined-up suite of best-in-class solutions. Enrich your learner data by importing your Digital Skills progression data from Assessment and Learning into our LMS and ILP solutions.
