

License Term for ABBYY FineReader Engine 12 and ABBYY FlexiCapture 12 SDK

1. APPLICATION EULA TERMS

The Application EULA must include the following terms and conditions governing the use of the ABBYY SDK or of the entire Application:

- 1.1. The End User is granted a Runtime License for the ABBYY SDK contained in the Application on condition that the End User complies with the terms and conditions of the Application EULA which apply to the ABBYY SDK or to the Application as a whole. The Runtime License may be time- or function-limited and protected from unauthorized copying by means of a hardware or software protection key, which is an integral part of the ABBYY SDK.
- 1.2. The End User may not perform or make it possible for other persons to perform any of the following activities infringing the rights of the owner of the ABBYY SDK:
 - 1.2.1. Reverse engineer, disassemble or decompile (i.e. reproduce and transform the object code into source code) or otherwise attempt to derive the source code for the ABBYY SDK (applications, databases, and other the ABBYY SDK components), or any part, except, and only to the extent that, such activity is expressly permitted by applicable law notwithstanding this limitation. If applicable law prohibits the restriction of such activities, any information so discovered must not be disclosed to third parties with the exception that such disclosure is required by law and such information must be promptly disclosed to ABBYY. All such information shall be deemed to be confidential and proprietary information of ABBYY;
 - 1.2.2. Modify the ABBYY SDK, including making changes to the object code of the applications and databases contained in the ABBYY SDK other than those changes that can be made by means of the ABBYY SDK as described in the documentation;
 - 1.2.3. Transfer the right to use the ABBYY SDK to third parties or make it possible to use the ABBYY SDK for persons who have no right to use the Application;
 - 1.2.4. Make it possible for any person not authorized to use the ABBYY SDK and working in the same multi-user system with the End User to use the ABBYY SDK;
 - 1.2.5. Make publicly available services that are based on or that use the ABBYY SDK functionality, whether commercial or non-commercial, via the Internet without the prior written consent of ABBYY.
- 1.3. The ABBYY SDK is provided "as is." ABBYY does not warrant that the ABBYY SDK will contain no errors, nor will it be liable for any damages, including damages for loss of business profits or disclosure of confidential information.
- 1.4. Export Rules. The End User shall not export or re-export the Application in violation of any export provisions in force in the country where the End User purchased the Application, or in violation of any other applicable legislation. In addition, the End User represents and warrants that the End User is not prohibited under applicable laws from receiving the Application.
- 1.5. If any part of the Application EULA is found void and unenforceable, it will not affect the validity of the balance of the Application EULA, which shall remain valid and enforceable according to its terms. The Application EULA shall not prejudice the statutory rights of any party dealing as a consumer.
- 1.6. If the Territory of distribution of Application includes U.S., the Licensee shall explicitly state in the Application EULA the following wording:

"Government Use. If use is made of the Application by the United States Government or any US Government agency, the following additional terms shall apply: (1) Restricted Computer Software, as defined in the Rights in Data-General clause at Federal Acquisition Regulations 52.227-14; and (2) any use, duplication, or disclosure by the Government is subject to restrictions as set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013".
