Financials

Financial Management Software

Developed by finance professionals to fully support the care sector with highly customisable dashboards and enhanced functionality. Financials provides you with the tools to simplify your finance processes and make informed financial decisions with real time reporting.

With a range of add-on modules to complement Financials core modules, you can build a financial management system around your care organisation so you can do more with less.

Greater insight, real time

Real-time reporting offers immediate access to crucial information. Effortlessly drill down into data specifics to boost visibility and make more informed financial decisions.

“Moving to Financials means that our finance teams can stop doing the boring admin stuff and focus on value-added tasks which are going to drive a difference.”

Nugent Care

Improved forecasting

When working with tight margins it's imperative to be able to make the right moves with maximum efficiency. Through Financial Planning it empowers teams and departments to monitor and create budgets offering improved forecasting and budgeting capabilities. Proactively ensuring your financial health.

Enhance productivity

Leverage dashboards and applets to craft user-specific interfaces. Detailed, graphical, real-time information for easy monitoring that empower you to work in your preferred manner and quickly access modules crucial to your role. Customisable work flows connect modules to a centralised task manager, offering immediate access to specific tasks.

Simplify automation

Enhance productivity by scheduling automated reports for specific times and users. Coupled with automated invoice processing and bank reconciliation, this approach frees up valuable time, enabling users to concentrate on other important tasks.

Cloud infrastructure

A cloud-based financial management system refines your financial operations, providing real-time access to data and enhancing decision-making. Financials offers scalability and security, ensuring your financial information is always accessible and protected. Eliminate unnecessary IT costs and reduce upgrade time with Financials.
