

## Assessment and Learning for GCSE

Our Assessment and Learning solution, bksb, is a global leader in education technology, with solutions for Functional Skills, Digital Skills and GCSE used by thousands of education providers and millions of learners around the world. As an online assessment solution, it offers initial and diagnostic assessments alongside personalised learning tools, all available online for your learners and tutors. With our solution, education providers receive a detailed view of each learner's attainment and improvement, while increasing learner engagement through user-friendly resources suited to any level.

The GCSE solution provides the learning and assessment resources needed for your learners to gain their GCSE qualifications in English Language, Maths and English Literature. Using our curriculum expertise alongside the latest innovations in Artificial Intelligence, we offer a personalised and engaging progression pathway to any learner working towards GCSE achievement.

### Curriculum Delivery

Our GCSE courses have all been designed to support learners working towards exams on any exam board. With resources covering papers 1 and 2 for English Language, 5 maths modules at grades 1-3 and 4-5, and the most popular English Literature texts, we provide streamlined resources for all three supported qualifications.

### Progress Tracking

Our GCSE maths solution uses a graded assessment and progress checks to track each learner's progress from pre-GCSE level to grades 1-9. Our self-marking Test your Knowledge skill checks are also available at the beginning or end of maths modules for learners to evaluate their own attainment.

### Empowered Learners

Maximise learner engagement with our inbuilt learning resources, accessible from any device and designed to cover a range of difficulty levels. Each GCSE course is supported by several short, engaging video resources to illuminate the curriculum and capture the attention of your learners.

### In-Depth Reporting

Inbuilt progression reports are available from within the solution to provide meaningful insight at the click of a button, helping you track your learner achievement and provide valuable evidence of improvement for auditing purposes.
