

OneAdvanced App

Putting the power of T&A and Payroll in your pocket

The OneAdvanced App enables your employees to manage their work lives while they're on the go.

From viewing and downloading payslips to booking holiday and checking leave entitlement, the OneAdvanced App makes it easy for employees to access the information they need without additional support. Purpose-built for dynamic and desk-free workforces, the OneAdvanced App helps your workforce stay connected, wherever they are.

Access schedules in an instant

Enable employees to access their work schedules in an instant to know when and where they're needed. Synced directly from Time & Attendance, schedules are always accurate, helping employees confidently plan work and personal commitments, avoiding missed shifts or last minute confusion.

Clocking made simple

Make attendance tracking easy with the OneAdvanced App. Employees can clock in and out with a single tap, whether they're on-site or working remotely. The app syncs seamlessly across all devices, including desktop and Smart Biometric Clocks, for uninterrupted tracking.

Even without an internet connection, the app keeps working. Offline clocking entries are stored securely and automatically synced once connectivity is restored, ensuring an accurate and consistent record.

Key Capabilities:

- **Instant access schedules** daily, weekly and monthly
- **Absence management** and entitlement
- **View/download payslips** and important year-end documents
- **Geo-tagging** for precision and security
- **Clocking across devices:** mobile, desktop and hardware
- **Online and offline** clocking
- **Track time spent on activities** throughout a shift
- **Enterprise-grade security** with single sign-on and multi-factor authentication and biometric login

Convenient absence requests

Employees submit absence requests directly through the app, which are then sent to managers for review and approval. This eliminates manual paperwork and improves efficiency across your operations. The system also offers a real-time view of holiday entitlement, creating clarity and transparency.

Payslips at your fingertips

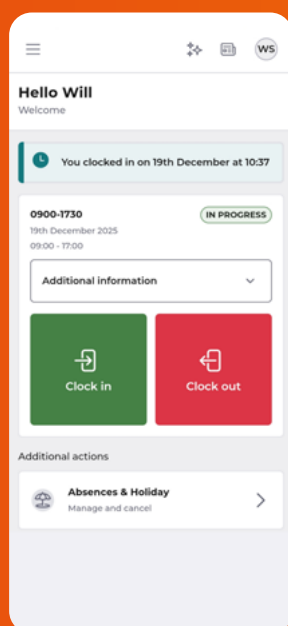

Give your team secure, instant access to payslips and end-of-year documents through the app. Employees can view and download their financial information whenever they need it, reducing requests for paper copies and cutting routine admin by putting records directly in their hands.

Security you can rely on

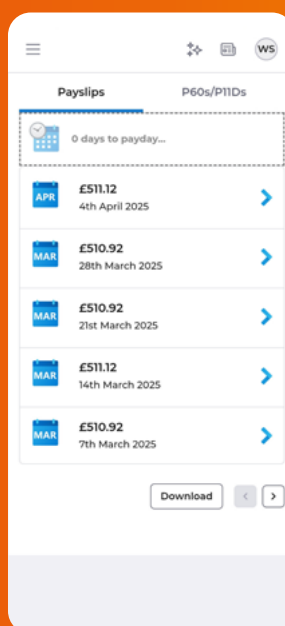

Powered by OneAdvanced's Identity, the app ensures enterprise-grade security through single sign-on (SSO) and multi-factor authentication (MFA). Employees enjoy streamlined access without juggling multiple passwords, while businesses maintain full control over sensitive data.

The OneAdvanced App is designed to make workforce management simpler and more effective, giving your team the tools they need to stay connected, productive, and supported.

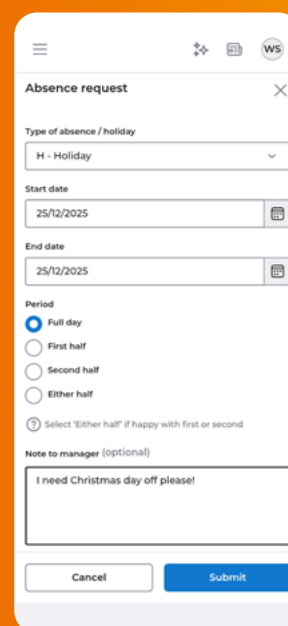

From clocking in to booking holiday, the OneAdvanced App makes it easy for your employees to manage their work lives.
